PURPOSE: The purpose of this Reference Guide is to provide information for Local Districts and Schools regarding emergency drills and procedures.

MAJOR CHANGES: This Reference Guide replaces Office of the Superintendent Bulletin N-25 on the same subject, dated December 16, 2002. Information regarding drill documentation has been updated to reflect the current law.

INSTRUCTIONS: I. BACKGROUND

Continuous review and revision of disaster preparedness are essential for the safety of students and employees. Previous disasters have given credence to this concept.

II. DISTRICT EMERGENCY POLICIES

Administrators are advised to become thoroughly familiar with the information contained in this bulletin and in the Safe School Plan (Volume 2 – Emergency Procedures) prepared for their school. Site administrators are to share this bulletin with all staff members to ensure decision-making continuity should the Site Administrator be absent from the site during an emergency.

Administrators shall make sure that all emergency signals are tested and drills and procedures are conducted in compliance with pertinent laws (see LEGAL REFERENCES). Such action shall include:

- A. The administrator shall instruct all students and staff to evacuate to the designated Emergency Assembly Area when appropriate. This allows for the accurate accounting of students and staff, provision of aid to those in need, and offers an opportunity to disseminate information.
- B. During an emergency, students shall remain on the school site until reunited with parent(s) or designees, and/or the Administrator determines if the environment is safe to disperse

students to their homes. Use of the Request and Reunion Gates for release of students is highly recommended.

C. Administrators shall perform the following tasks to facilitate the effectiveness of the Safe School Plan:

1. Regularly review and familiarize staff regarding current emergency procedures and staff assignments.
2. Conduct drill practice/review* as follows:

DRILL TYPE	ELEMENTARY	MIDDLE	SENIOR
<i>Fire</i>	First week of school until proficient, then once per month , including summer school.	First week of school until proficient, then once per month , including summer school.	First week of school until proficient, then once per semester , including summer school.

<i>Lock Down/ Shelter-in-Place</i>	Review* once per semester , including summer school.	Review* once per semester , including summer school.	Review* once per semester , including summer school.

*An oral review of purpose and procedure may be done in lieu of actual practice.

3. Conduct a school-wide emergency response drill during the Fall Semester to test the school’s updated Safe School Plan.
4. Participate in the Districtwide Earthquake Drill in April in compliance with state requirements.

D. The administrator shall verify drills conducted as required by fire department regulations and District policy as follows:

1. Verification of drills is to be recorded on the “Monthly Emergency Procedures Log” (Attachment B). A copy of the log form can be found on the OEHS Emergency Services Web Site: www.lausd-oehs.org/emergencyservices.asp.
2. The “Monthly Emergency Procedures Log” and the memo/directions from the Site Administrator listing the date and time of the drills are to be retained at the school/non-school site for inspection by the fire department, and for any other drill practice verification, by District Personnel. The logs are to be kept for two years.

LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

- E. As part of their Los Angeles City Child Care Permit requirements, all Early Education Centers must *post* their Emergency Drill Record next to their permit.

III. DISTRICT EMERGENCY DRILL PROCEDURES

Complete descriptions of the procedures are found in the Safe School Plan (Volume 2 – Emergency Procedures), Section 4.

A. Fire Drill

1. Students will evacuate to designated areas in a quiet, safe and expeditious manner.
2. Teachers will take their attendance cards or roll books, account for all students and report any inconsistencies to the Incident Commander.
3. Students and teachers will wait in their designated areas for instructions.

B. Earthquake “Duck/Cover/Hold” Drill

In 1986, the District changed its earthquake drill procedures to include “Duck/Cover/Hold”, as recommended by the Los Angeles City Fire Department. The “Duck/Cover/Hold” procedure affords more suitable protection from flying objects and broken glass for students and staff during an earthquake.

1. Inside classroom
 - a. Upon command of “DUCK”, drop to knees, facing away from windows.
 - b. Take cover by getting under/below equipment (desk, chair, table, etc.)
 - c. Grasp equipment (furniture legs, etc.) with hands and hold tightly.
 - d. Wait quietly for further instructions.
2. On school grounds but outside school buildings
 - a. Stay clear of buildings, power lines, light poles, etc.
 - b. Drop to the ground, cover head if possible and hold onto a stable object if available.
 - c. Remain clear of obstacles and wait until situation stabilizes and staff member gives all clear.

LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

C. Drop/Take Cover Drill

The emergency “Drop/Take Cover” procedure is used during the following disasters when they occur at or near the school or non-school site: bomb blast, gas truck explosion, airplane crash, gas storage tank explosion, shooting incident, railroad tank car explosion, gasoline refinery explosion, etc.

1. Procedure when inside the classroom
 - a. Upon the command of “Drop/Take Cover,” drop to knees with back to a window, place head in lap and clasp hands behind the neck.
 - b. Wait quietly for further instructions.
2. Procedure when outside the classroom
 - a. Seek any type of protection (curb, bench, ditch, gutter, etc.)
 - b. Drop to ground with back to hazard and clasp hands behind neck.
 - c. Remain in this position for a brief period, and then seek, if necessary, more protective cover.
3. Procedures when going to or from school:
 - a. Seek any type of protection (curb, bench, ditch, gutter, etc.)
 - b. Drop to ground with back to hazard and clasp hands behind the neck.
 - c. Remain in this position for a brief period, and seek, if necessary, more protective cover.
 - d. Go to the nearest available place of shelter and remain there quietly until instructed to leave by a recognized authority.

D. Lock Down Drill

This drill is used to practice securing the school during police action, campus intrusion, community incidents or any other incident requiring school/room security.

1. Lock Down procedures inside the classroom
 - a. Lock doors.
 - b. Close blinds and cover door window if necessary.
 - c. Move students away from window.
 - d. Remain in classroom until emergency is over.

LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

2. Lock Down procedures outside the classroom
 - a. Proceed to closest room.
 - b. Remain inside room until emergency is over.

E. Shelter-in-Place Drill

This action is taken to place and/or keep students indoors in order to provide a greater level of protection from airborne contaminants in outside air. Shelter-in-Place is implemented when there is a need to isolate students and staff from the outdoor environment and includes the shut down of classroom and/or building HVAC systems. During Shelter-in-Place, no one should be exposed to the outside air.

The difference between Shelter-in-Place and Lock Down is that Shelter-in-Place involves shutdown of the HVAC systems, and allows for the free movement of students within the building. However, classes in bungalows and buildings with exterior passageways will have to remain in the classroom.

1. If outside, students will proceed to their classrooms if it is safe to do so. If not, teachers or staff will direct students into nearby classrooms or school buildings (e.g. auditorium, library, cafeteria, gymnasium). Teachers should consider the location and proximity of the identified hazard and, if necessary, proceed to an alternative indoor location.
2. Teachers are responsible to secure individual classrooms and the Plant Manager and Security/Utilities Team will assist in completing the procedures as needed: shut down the classroom/buildings(s) HVAC system; turn off local fans in the area; close and lock doors and windows; seal gaps under doors and windows with wet towels or duct tape; seal vents with aluminum foil or plastic wrap, if available; and turn off sources of ignition, such as pilot lights.

IV. "SCHOOL BUS" EMERGENCY PROCEDURES

Students traveling on school buses will receive instructions from bus drivers during any type of emergency. Buses may report to the nearest school after an emergency until further information is received.

LOS ANGELES UNIFIED SCHOOL DISTRICT REFERENCE GUIDE

V. STUDENT EMERGENCY INFORMATION CARD

The 1994 Emergency Information Card provides administrators with additional student information in case of an emergency. Emergency Cards may be ordered from the District's Supply Catalog, Commodity Code 9661214121. Every effort should be made to keep all student emergency contact information current and accurate.

VI. SAMPLE LETTER

Attachment A is a sample letter in all the current translations that may be used to communicate to parents.

Attachment C is a chart titled "Conducting Emergency Drills," which may be duplicated and placed in all rooms.

Schools can download additional copies of the Sample Parent Letters, Emergency Drill Practice Report and Conducting Emergency Drill Chart by going to the Emergency Services web site at www.lausd-oehs.org/emergencyservices.asp.

Уважаемые родители/опекуны:

Мы всегда прежде всего заботимся о личной безопасности и благополучии школьников, учителей и других сотрудников школы. В связи с этим заведующий школьным округом обратился к родителям и школьному персоналу с просьбой принять участие во всеобщих учениях по подготовке к ЧП. Учения состоятся _____ 2004г. в _____ часов.
