POLICY BULLETIN

TITLE: Use of Cellular Telephones and Pagers by Students

NUMBER: BUL- 2576

ISSUER: Dan M. Isaacs
Office of the Chief Operating Officer

DATE: June 19, 2006

ROUTING
Local District Superintendents
Local District Operations
Coordinator
School Site Administrators

POLICY California Education Code, Section 48901.5 permits *“the governing board of each school district, or its designee, to regulate the possession of any electronic signaling device that operates through the transmission or receipt of radio waves, including, but not limited to, paging and signaling equipment, by pupils of school districts while pupils are on campus, while attending school-sponsored activities, or while under the supervision and control of school district employees.”*

It is the policy of the Los Angeles Unified School District (LAUSD) to prohibit the use of cellular phones, pagers, or any electronic signaling device by students on campus during normal school hours or school activities.

MAJOR CHANGES: This bulletin replaces Bulletin No. 1086, Use of Cellular Telephones and Pagers By Students, June 14, 2004, Office of Environmental Health and Safety, regarding the use of electronic signaling devices on campus by students. This bulletin was revised due to recent changes to the policy.

GUIDELINES: The following guidelines apply.

Definition: Paging and signaling equipment devices covered by this policy include, but are not limited to, telephone cellular phones, text messaging cellular phones or pagers, camera phones, and Blackberries.

General Guidelines:

- Students are permitted to possess cellular phones, pagers, or electronic signaling devices on campus provided that any such device shall remain “off” and stored in a locker, backpack, purse, pocket, or other place where it is not visible during normal school hours, or school activities.
- Students are permitted to use cellular phones, pagers, or electronic signaling devices on campus before and after school or school activities only.
- Students must comply anytime a request is made by school personnel to cease the use of a cellular telephone, pager, or other electronic signaling device even before or after school.
- If such a device is observed by staff, during school hours or activities, it shall be confiscated until redeemed by a parent or guardian.

LOS ANGELES UNIFIED SCHOOL DISTRICT POLICY BULLETIN

- An exception to this policy may be granted by the site administrator for purposes relating to the health needs of a student.
- Students and parents are to be advised of this prohibition annually, and are also to be advised that the District is not responsible for students' lost or stolen cell phones or pagers.

Staff Responsibility for Confiscated Cellular Phones or Pagers

- District employees who take actual possession of any personal property of a student, with the intention of returning it at a later time, have the responsibility to ensure that the property is placed in a properly secured and locked location.
- Placing the item on top of or inside an unlocked desk or cabinet is not considered "a properly secured and locked location."
- Schools are to establish a procedure whereby staff can turn in confiscated personal property of students and the property is placed in a secured and locked location. A log noting the value should be maintained of items placed in or removed from the secured and locked location. Access should be limited to an administrator or designee.

Safety Precautions: It should be noted that cellular telephones transmit Radio Frequency (RF) waves, and should NEVER be used, or turned ON during the following situations. The safety precautions below also apply to any two-way radio, pager, palm-top or lap-top devices that transmit RF waves.

- During a response to a bomb threat. The transmitted RF waves may, if used within 500 feet of an explosive device, cause it to detonate.
- In an explosive atmosphere, such as a painting booth or at a gasoline pump/station. The transmitted RF waves may cause a spark that could cause an explosion.
- Near any explosive blasting caps. The transmitted RF waves if used within 500 feet of a blasting cap may trigger it and cause an explosion.

AUTHORITY: This is a policy of the Board of Education.

ASSISTANCE: For assistance, please contact your Local District Operations Coordinator. For further information, please call the Office of the Chief Operating Officer at (213) 241-4133.
