SCHOOL UNIFORM POLICY / DRESS CODE GUIDELINES

The dress code was developed to establish a friendly and professional atmosphere that promotes pride, respect, and safety for the students and staff. As a family of professionals, our basic standard for students is professional dress and to take pride in their appearance. School is a place of business and education is the student's job. We depend on our parents to support and assist us in maintaining our dress code standards. The following dress code guidelines are enforced daily at King/Drew Magnet High School of Medicine and Science. Our **official uniform** provider is:
