

## "Sample Worksheet: Statistical Measurements"

Group Members:  Pedro, Marta, Felix, Adriana, and Saul	
Data Set Description:  Hourly wages we earned, in dollars (salary/hour).	Data Set:  \$6, \$7, \$7, \$9, \$10
Statistical Measurement (circle one):  Range  Mean (Average)  Median  <u>Mode</u>	Calculation:  The data set is already arranged in order, above. Visual inspection shows that \$7 is the only salary repeated twice.
Descriptive Paragraph:  The hourly wage that occurs most often in our data set is \$7. This makes it the mode of our data set.	
Other:
