

Los Angeles Unified School District

Educational Services, Math/Science, LAUSP

Invites mathematics and science teachers' grades 4-12 to attend a 30-hour workshop on

Image Processing for the Math & Science Classroom

Participants successfully completing the workshop will:

- use image processing software to show applications of mathematics and science in problem solving,
- receive a handbook (with CD-ROM) of lessons and related images for use in the classroom,
- receive a digital camera, and be able to use it along with scanners and software to enhance images,
- participate in a training Cadre for future participants in the Image Processing for Teaching workshops,
- receive one P point credit

Dates and Times:

Location

B-Track Teachers: April 21st – 25th, 2003
Monday - Friday, 8:00 AM - 3:00 PM

East LA MST Center

C-Track Teachers: June 16th – 20th, 2003
Monday - Friday, 8:00 AM - 3:00 PM

San Gabriel MST Center
(city of South Gate)

A-Track & Traditional Calendar:

July 14th – 18th, 2003

August 4th – 8th, 2003

Monday - Friday, 8:00 AM - 3:00 PM

Van Nuys MST Center

East LA MST Center

Enrollment will be limited to 25 participants. Teachers must be pre-registered in order to participate in the workshop. 30 hours participation is required for materials or credit.

Though the class will be taught with the Macintosh version of the software, PC versions will be available.

Teachers may apply by returning the attached flyer by school mail, U.S. mail, or e-mail
