L INFORMATION ON SCREEN 13

Matriculating/Magnet students/New schools

SIS has assigned the next school location, field 192, on Screen 13 for students matriculating from an elementary school. We have also entered the next school location for schools with boundary changes or with new schools opening close to their location. Students who have been accepted to magnet schools will have their magnet location loaded into the next school field by the end of April. It is NOT necessary to enter the L code and L date for the matriculating or magnet students. It will automatically be done at rollover. Once the data has been entered, schools can get that information by typing the following English sentence. At the Main Menu type: **E <enter>**

To print a roster by grade of any student in grades Pre-K – 4th grade with data in field 192:

:SORT XXXX WITH 192 AND WITH GRN LT "5" BY GRADE NAME ROOM GRADE ADDRESS PARENT-NAME 192

Review this list, if the student is NOT leaving your school, remove the data from fields 190, 191, and 192 (control N) and FI (file) to save.

Matriculating students with option areas

In some cases, parents have a choice of schools. It is the school's responsibility to contact these parents and then to enter the school of choice. If the student will be leaving your school, enter the next school's actual location code in field 192, not the school name.

Students leaving your school at the end of the school year due to other reasons

For all non-matriculating students who plan to transfer to another school for the following school year, the office must enter the following on Screen 13.

```

0 ID #           : -
190 L CODE       :
191 L DATE       :
192 NEXT SCHOOL LOCN:
```

It is important to update this information as soon as possible. This data will be used for rollover and the selection of students eligible for Supplemental Education Services.

MAGNET PLACEMENT

Sending Schools

By the end of April, magnet school locations will have been loaded into SIS on Screen 13, field 192 for those students who have been accepted to a magnet school. Students with this information on Screen 13 will be L'd out during rollover in June. If the parent notifies you in writing that he/she declines the magnet placement, remove the information on Screen 13, field 192 (control N), and notify the magnet school that the student will remain at your school. If the student will be matriculating and declines the magnet placement, be sure to enter the middle school, location code. To get a list of students who have been accepted into a magnet, at the Main Menu type: **E <enter>**

:PON16

:SORT XXXX WITH 192TYPE = "EC" "ES" "SP" "JC" BY NAME NAME GRADE 192 (N)

PAR not needed. The sending school does not need to provide a PAR for the magnet school.

Magnet Schools

Magnet schools do not need to ask for a PAR. Parents should not be asked to bring a PAR when registering their student at the Magnet. The data needed to help place a student in classes for next year is available. Magnet schools should call Elementary SIS at (213) 241-4617 and request a Magnet Data Roster. SIS will print a roster of the needed data either by alpha or grade and fax it to your school.

The roster includes the following information for each accepted student:

- | | |
|--|-----------------|
| *District ID | *Current School |
| *Ethnicity | *Home language |
| *Immunization status | *Gifted |
| *Grade | *Student name |
| *Special Education Information including RSP, SDP, DIS | |
| *Master Plan Information— Classification, program, and current ELD level | |

PARENT NAMES—NWC OR DECEASED REMOVE

As schools are printing letters for the Family Module in ISIS, we are finding schools have not removed parent indicators that once were entered in SIS. We ask that you do some data clean-up and remove any information that does not belong in the parent fields. See below for specific sentences

Remember to enter only legal names in those fields. **NWC, UNKNOWN, NOT STATED, or DECEASED**, etc. should not be entered, as the system reads it as the name or part of the name. The same applies to entering the name of the business address instead of the business address. **KAISER PANORAMA, CHAPPALA MARKET NORTH HOLLYWOOD, HOUSEWIFE, CONSTRUCTION WORKER**, etc. should not be entered as it sees this as the business address. To print a roster of what you have in the system at the Main Menu type: **E** then **:PON16**

For a sentence with mother's information:

:SORT XXXX BY ROOM BREAK-ON ROOM ""P"" BY NAME NAME 24 27 28 46 (N)

For a sentence with father's information:

BY ROOM BREAK-ON ROOM ""P"" BY NAME NAME 30 34 35 47 (N)

For a sentence with guardian's information:

YEAR END TASK CHECK-OFF LIST

****Complete all procedures before rollover begins June 24, 2011 at 5:00p.m.****

Enrollment

As new students enroll from now until the end of year, continue to enter them as you normally do Screen 16, Option 11 or on Screen 10 for new students to the district.

Pre-Enrollment

Prior to rollover (after June 24 after 5 pm), students who pre-enroll for the new school year, generally are pre-kindergartners and kindergartners, and who are not currently enrolled in an LAUSD school. As of now, only future kindergartners will be able to be pre-enrolled on Screen 10. Do NOT enter a room number for these students on Screen 10, field 104 or Screen 32. Enter room numbers on Screen 16, Option 9, field 194. Also, remember to enter a grade level 1 year lower than their grade level for the new year. (use a period for new kindergartners) These students will not be counted on the current classification report if you enter a future E date.

New Year room numbers

Prior to rollover, new year room numbers may be entered on Screen 16, Options 7, 8, or 9, field 194.

Print class or grade rosters using Screen 14, Options 7 or 14. Select by room or by grade. Write each student's new room number next to his/her name on the rosters (including pre-k and special education, excluding matriculating students). Use these class or grade rosters to enter new room numbers for all students on Screen 16, Option 7, 8, or 9, field 194.

Option 7 displays students in alphabetical order by their current room and allows you to enter students' new room numbers very quickly using the current room list.

Option 8 displays students in alphabetical order by specified track or grade and allows you to enter new room number very quickly by track or by grade.

Option 9 displays each student individually, and is a slower process for entering new room numbers.

***Warning! Do not use Screen 10, field 104 (current room field), or Screen 32 to enter new room numbers for the coming school year 2011-2012.** Only use Screen 32 for changes to the current school year's room numbers. **Use Screen 16, Option 7, 8, or 9, field 194 to enter next year's room numbers.** If Screen 16, Option 7,8, or 9 are not used it will cause major errors in MyData and your school's historical data.

Receiving Rosters

After new rooms have been entered, print receiving rosters to show students in their new rooms with their current year's room. (Receiving rosters may be rerun as many times as needed.)

All students except matriculating 5th graders (substitute 6 for 5 in the sentences below for 6th graders.) Students who did not receive a new room will print out last on this report.

Be careful of punctuation "'P"' (QUOTATION MARKS), (APOSTROPHE), (P), (APOSTROPHE), (QUOTATION MARKS)

Retentions

The teacher is responsible for entering "Will Be Retained" on the Report Card for the 3rd reporting period. If "Will Be Retained" is checked (**prior** to rollover on June 24th), the following will be entered in SIS automatically at rollover;

*Field 144, Screen 4, Retention Grade

*Field 145, Screen 4, Retention Date

*Field 289, Screen 4, Retention Type **REG** (regular)

The office staff will need to enter all of the above information for any student retained **after** rollover. The office staff is responsible for completing fields 144, 145, and 289. The school will not be able to enter this information until July 1, 2011.

5TH/6TH GRADE MATRICULATING INFORMATION

A second download of information to the middle schools will be made in late May 2011. Use the sentences below for matriculant information. For all sentences below, at the Main Menu type: **E <enter>**

PON <enter> (unless PON16 is indicated).

Missing the middle school location code. Use **PON16**

:SORT XXXX WITH GRN = "5" AND WITH NO 192 BY NAME NAME 103 ADDRESS ROOM (N)

Rerun this sentence periodically to make sure all matriculants have an entry in Screen 13, field 192, Next School Location. If you are not sure which middle school the student should attend, enter the address in school finder, Screen 16, Option **12N** (only in the legacy blue screen), to find the correct middle school location code. Then enter the location code (not the name of the school) on Screen 13, field 192.

For students who live or will be moving out of the district, on Screen 13, field 192, enter the city where the student will be attending middle school— example: Long Beach.

2011-2012 NEXT SCHOOL LOCATION

In preparation for the **2011-2012** school year, there is an additional option on screen 16. This supplemental option is **12N**. This screen, which works just like option 12, will give you the resident elementary and secondary school assignments for next school year. The boundaries listed on this screen are up to date, but are incomplete and are still being changed by the district.

SIS TRAINING CLASS SCHEDULE

We have set up Beginner/Initial Elementary SIS classes in the Learning Zone. All classes are in the morning from 8:00 a.m. to 11:30 a.m. The trainings are as follows:
