## UPDATING SIS FOR 2010 STAR TESTING

In preparation for the CST, CAPA, CMA, and STS testing programs, schools must enter all required student information into SIS in order to receive accurate pre-coded answer documents and barcode labels. Refer to REF-4969, "Updating Elementary SIS to Prepare for Testing Programs, Spring 2010" dated Nov. 24, 2009 for detailed information. Student information must be updated in SIS no later than 5:00 on the following dates:

CST & CAPA grades 2-6, CMA grades 3-6, and STS grades 2-6

## CAPA ROSTER

Information from Welligent is downloaded into SIS for Special Education students in grades 2-5/6 required to take the CAPA (California Alternate Performance Assessment). Testing forms, documents, and labels will be sent to the schools for students taking the CAPA, if the appropriate testing information has been entered into Welligent. To print a list of students in grades 2-5/6 with a CAPA indicator on their Welligent IEP, At the Main menu Type:

**:E**

**:CAPA-ROSTER**

School personnel must verify that all the students on the list are the ones who will be taking the CAPA and check the list for any missing students. If a student is missing, it may mean that the student does not have a complete IEP, or CAPA has not been entered into Welligent as the STAR test the student should be taking. If a change needs to be made to a student's CAPA status, it must be changed in Welligent per the student's IEP. This change cannot be made in SIS by the school.

## TESTING DATA REQUIRED FIELDS

It is very important that these fields are accurately entered into SIS. The following sentences will identify students with missing data:

### **Missing Parent Ed level (Field 45)**

## MASTER PLAN SURVEY (03/01/10) – CLEANUP / ADD DATA

**The 2009-2010 Master Plan Survey data will be captured ON COUNT DAY (March 01, 2010).**

Information entered in SIS by 5:00 p.m. will be captured for the survey. Schools may want to print a complete set of test runs and Master Plan Program Rosters to keep as reference. This will be the LAST day to enter/update information or make corrections in SIS. "Master Plan Program Survey Instructions for Elementary Schools, 2009-2010" contains complete information. It will be published later this month.

### Screen 30-Option 1 GOT CELDT

## WELLIGENT/ SIS REMINDER-AMENDMENTS

Welligent feeds all information into SIS biweekly. For students with an IEP, the special education fields on Screen 24 are loaded from Welligent with the exception of field 468, RSP Teacher #, which must be added by the school, (if applicable).

**Welligent Reminder:** If it has been decided at the IEP meeting that the student would benefit from changing programs- (e.g. Special Day Program changing to General Education with Resources (RSP) or General Education with Resource through changing to Special Day Program), the change must be made through a review, **NOT WITH AN AMENDMENT.** Any program change made through an amendment will not feed into SIS. If there is an Annual Review coming up, please correct the placement. If the Annual Review was held recently and the placement is incorrect, it would be best to hold another Annual Review.

## ENROLLMENT/ STATISTICAL

We are receiving several calls about problems with school's statistical reports not balancing. There are a variety of reasons why this is happening. The most common reasons they are not balancing are:

- *Pre-K students are being enrolled as Kinder students. Please make sure Pre-K students are assigned to the correct classroom and correct grade.*
- *Students were not properly moved using Screen 32. (See comments below) Students in Independent Studies were not moved correctly or the IS class was not set up correctly.*
- *Students with IEP's state something different than what school personnel enter in the Screen 10 or 32. Whatever is in the IEP will dictate what shows up in ESIS.*

When users call ESIS for assistance, we will request an ISIS data report and forward it to the school. The purpose of the data report is for schools to compare their ESIS records with ISIS records. The ISIS data report contains one spreadsheet with two tabs. One tab is SM # Summary which is statistical numbers from ISIS which are used to compare to ESIS statistical. The other tab is SM # Detail which is all the students included in the Summary tab.

Other reports that may help resolve discrepancies include:

- *Running the SMASR for the months in question and compare them to ESIS class rosters.*
- *Print ESIS E/L (Screen 32 information) list to compare to the ISIS data. (See sentence below)*
- *Enter all their attendance back to the beginning of school, then call ESIS to request ISIS statistical data to come through, Schools will need to re-run all statistical the following day.*

## SCREEN 32

In order for ISIS to feed ESIS the correct attendance information, attendance must be entered retroactively from July (year-round schools) or September (traditional schools).

If you would like to check which students have information on screen 32 type:

**:PON16**

**:SORT XXXX WITH 1190 BY NAME 0 NAME GR ROOM 1190 1191 1192 1193 1194  
1195 1196 1197 1198 1199 1200 DBL-SPC HEADING "REPORT OF SCREEN 32 L1/E1  
INFORMATION AS OF 'DLL' " (IN)**

Just as a review for all of our users of when to use screen 32. Screen 32 should be used any time a student is moved and requires an L1 or E1. Situations include: A student moves to a different room, A student moves to a different grade, A student moves to an **I**ndependent **S**tudies assignment (**IS**), or if a continuing student returns to school after the opening day. For setting up an **IS** assignment please visit <http://isis.lausd.net> > elementary schools> attendance> Attendance Procedure Handbook for Elementary Schools.

### **Closed rooms:**

If you have had to close a room and redistribute the students, you must leave the closed room in your room file (Screen 16 option 2) with the grade but no teacher assigned. That room number cannot be used for the remainder of the school year. If you have to use that room number place an "x" after the number, ex: "15x"

## REPORT CARD GRADES

**At this time schools** will be using OPR to enter grades for the next reporting window. For year-round schools the next grading window is due to open on 1/22/10 for 3 Track B & C and 4 Track C, & D. Please remember to keep current your teacher assignments on Screen 16 and ensure teacher access to SOAR/OPR is up-to-date. If you need to fax in a request to adjust teachers access please do so ASAP.

## ELD LEVELS- TIME TO UPDATE??

The Progress Report should reflect the reading, writing, speaking, and listening grades on the current ELD portfolio. If an EL student has 3's and 4's on the Progress Report for ELD reading, writing, speaking, and listening, it may be time for the student to advance to the next ELD level. Before moving the student up an ELD level make sure to check all of the ELD strands are at least a 3 in the ELD folder.

To print a list of these students, type :

**:PON16**

**:SORT XXXX WITH 162 = "LEP" AND WITH CUR-ELD LE "4" AND WITH ELD-READ-MARK GE "3" AND WITH ELD-WRITE -MARK GE "3" AND WITH ELD-SPEAK-MARK GE "3" AND WITH ELD-LISTEN-MARK GE "3" BY TRACK BY ROOM BY NAME 0 BREAK-ON ROOM ""P"" NAME 162 GRADE CUR-ELD ELD-READ-MARK ELD-WRITE-MARK ELD-SPEAK-MARK ELD-LISTEN-MARK (IN)**

Staff can review rosters and update ELD portfolios as applicable. Please make sure your school's EL Coordinator gets a copy of the roster. (This sentence will also work for single track schools.) Use the above sentence shortly after each grading period to help you determine which students may be ready to advance an ELD level. Be careful of punctuation in the above sentence - in the 4th line, before the P there are quotation marks, apostrophe, P, apostrophe, quotation marks --"P".

## KEEPING YOUR SINGLE SIGN-ON ACTIVE/ENABLED

We would like to remind all of our users to periodically check your *lausd.net* e-mail for the warning that your SSO will expire. Your SSO will remain active for 180 days from last time of use while ESIS and ISIS (LAUSDMAX) expires after 120 days. This is important for users trying to access SOAR, OPR (Grades on old system), and Web SIS.
