## ENTERING NEW ROOM ASSIGNMENTS FOR 2009-2010 SCHOOL YEAR

### Future Room Assignments

Beginning April 1, you may enter future room assignments on Screen 16, options 7 or 9, field 194. During the rollover process after June 19, the new room assignment will be moved from field 194 to field 104.

Please do NOT enter the future room number on Screen 4 or Screen 10, field 104 (room field). Field 104 must contain the child's present room for the remainder of this school year. Changing the current room assignment will affect the Online Progress Report, Student Online Assessment Reports, classification reports, statistical reports, and all class rosters.

### Teacher Assignments

Please do NOT enter teachers' new room assignments for the new school year on Screen 16, options 2 & 2A until after June 19, when the rollover procedures have been completed. Entering this information before the rollover process does not give you a headstart on the new school year. It will corrupt your current school year's data.

## POSSIBLE RETENTIONS

A reminder for teachers: **MAY BE RETAINED** must be checked on the Progress Report at the second reporting period for possible retainees, and **WILL BE RETAINED** must be checked at the third reporting period for students who are being retained.

In preparation for the 2009-2010 school year, the office staff will NOT be able to enter the retention grade in SIS (R next to the grade on Screen 10, field 102) beginning April 1, 2009. SIS will be removing the R from current retained students in preparation for the new school year on April 1.

The teacher is responsible for entering "Will be retained" on the Online Progress Report for the 3rd reporting period. If "Will Be Retained" is checked (prior to rollover on June 20), an R will be automatically added to the grade field in SIS. The grade will remain the same after rollover. The following will be entered in SIS at rollover:

- Field 144, Screen 4, retention grade
- Field 145, Screen 4, retention date (June 30, 2009)
- Field 289, Screen 4, retention type REG (regular) will fill-in for grades 0-1.

The school will also be able to enter the retention grade on Screen 4, field 144, the retention date in field 145 (June 30, 2009), and the retention type in field 289 (REG or SBP).

## CONNECT-ED WRONG PHONE #?

If an individual notifies the school that they have received phone messages, but they have no children at the school, please promptly remove their phone number(s) from screen 31 and if needed from the home phone #, Screen 10, field 9.

To identify the student's record with the incorrect phone number, type the following at the Main Menu

```
:E
:PON16
:SORT XXXX WITH PHONE = "YYYYYYYYYYY" OR WITH 1172 = "YYYYYYYYYYY" BY NAME
NAME PHONE 1172 1173 1174 1175 1176 1177 GR ROOM (N)
```

To enter the correct number refer to the student's emergency card or contact the parent. Then enter the correct home phone and the correct notification number on Screen 31. Be sure to include the Connect-Ed forms in your enrollment packets for all new students.
