PRIMARY CENTER MATRICULANTS

SIS will load later this month the next school location code on Screen 13, field 192 for matriculating primary center students. Some students did not automatically receive a next school location code due to option areas, address errors, or students living outside of the LAUSD boundary areas.

To print a list of matriculating student missing the next location code, at the Main Menu type: **E <enter>**

:PON16

:SORT XXXX WITH GRN = "0" AND WITH NO 192 BY NAME NAME ADDRESS 192 ROOM (N)

For First or second grade matriculating students, substitute "1" or "2" for "0" in the sentence above and below.

- If needed, correct any address errors on Screen 10. Use School Finder, Screen 16, Option 12N, (which will be available in early April) to determine the next school location.
- If School Finder indicated that the students are living in an option area, it is the responsibility of the school to contact those parents and then enter the school of their choice in Screen 13, field 192.
- For students living outside LAUSD boundaries, enter location code 0000 (out of district). If the parent plans to send the student to an LAUSD school, the parent must get a permit from their home district, then contact the Permits Office (213) 745-7960. If the student is granted a permit, the parent must then contact the next school.
- Rerun the sentence above to be sure there are now NO matriculating students missing a next school code.

To print an alphabetical roster of matriculating students, at the Main Menu type: **E <enter>**

:PON16

:SORT XXXX WITH GRN = "0" BY NAME NAME NEXT-SCHOOL GRADE ROOM (N)

To print a roster of matriculating students by the next school, then alphabetically:

:SORT XXXX WITH GRN = "0" BY NEXT-SCHOOL BY NAME NAME GR ROOM BREAK-ON 192 (N)

To print a roster of matriculating students by room:

**:SORT XXXX WITH GRN = "0" BY ROOM BY 192 BY NAME BREAK-ON ROOM "P" NAME GR
BREAK-ON 192 (N)**

Be careful of punctuation "P" (QUOTATION MARKS), (APOSTROPHE), (P), (APOSTROPHE), (QUOTATION MARKS)

ENTERING NEW ROOM ASSIGNMENTS FOR 2010-2011

FUTURE ROOM ASSIGNMENTS

Beginning April 1, you may enter future room assignments on Screen 16, Option 9, field 194. During the rollover process, the new room assignment will be moved from field 194 to field 104.

Please do NOT enter the future room number on Screen 4 or Screen 10, field 104, (room field). Field 104 must contain the child's present room for the remainder of this school year. Changing the present room assignment will affect the Online Progress Report (OPR), Student Online Assessment Reports (SOAR), LAUSD-MAX, classification reports, statistical reports, and all class rosters.

TEACHER ASSIGNMENTS

Please do NOT enter teachers' new room assignment for the new school year on Screen 16, Options 2 & 2A until after the rollover procedures have been completed. Entering this information before the rollover process does not give you a head-start on the new school year. It will corrupt your current school year's data.

WINDOW SOCKET ERROR

How to minimize socket errors:

1. Make sure to logoff properly
 - From the Main Menu type:**OFF**, the following will appear:

```
< Connect time= 21 Mins.; CPU= 0 Units; LPTR pages= 0 >
< logged off at 13:46:13      on 05 Mar 2010      >
```

2. Click on File
3. Click on Exit

NOTE: DO NOT USE ANY OF THE TWO "X" THAT ARE LOCATED IN THE UPPER RIGHT HAND CORNER

POSSIBLE RETENTIONS

A reminder for teachers: MAY BE RETAINED must be checked on the Progress Report at the second reporting period for possible retainees, and WILL BE RETAINED must be checked at the 3rd reporting period for students who are being retained.

The teacher is responsible for entering "WILL BE RETAINED" on the Progress Report for the 3rd reporting period. If "WILL BE RETAINED" is checked an R will be automatically added to the grade field in SIS. The grade will remain the same after rollover. The following will be entered in SIS at rollover:

- **Field 144, Screen 4, Retention Grade**
- **Field 145, Screen 4, Retention Date (June 30, 2010)**
- **Field 289, Screen 4, Retention Type REG (Regular) will fill-in for grades 0-1**

The school will also be able to enter the retention grade on Screen 4, field 144, the retention date in field 145 (June 30, 2010), and the retention type in field 289 (REG or SBP)

SCREEN 31 (CONNECT-ED SCREEN)

If an individual notifies the school that they have received phone messages, but they have no children at the school, please promptly remove their phone number(s) from screen 31 and if needed from the home phone number, Screen 10, field 9.

To identify the student's record associated with the incorrect phone number, at the Main Menu type:

:E

:PON16

: **SORT XXXX WITH 9 = "YYYYYYYYYYY" OR WITH 1174 = "YYYYYYYYYYY" OR WITH 1175 = "YYYYYYYYYYY" BY NAME NAME PHONE 1172 1173 1174 1175 1176 1177 GR ROOM (N)**

To enter the correct number refer to the student's emergency card or contact the parent. Then enter the correct home phone number and the correct notification number on Screen 31. Be sure to include the Connect-Ed forms in your enrollment packets for all new students.

In the case you are unable to find the phone number using the above sentence please advise the parent to call 213-241-0875, and leave a detailed voice message.

The Information on Screen 31 is not downloaded automatically from any other screen. It is important for you to maintain this Screen with the most up-to-date information you have. As parent/guardians inform you of phone number changes please make them on Screen 10, as well as, Screen 31

DOWNLOADING STUDENT DATA FROM SIS

Before you can begin to download student data onto your desktop/disk, you must have the principal's authorization. All student records are confidential. By using the following directions you will be able to download SIS data of your choice as easily as creating an English sentence. An excel file will be created which is tab delimited. After completing the steps below, the file will be on the Windows desktop.

```

    DOWNLOAD SIS DATA TO DISK

    Enter the name of the disk file: YOURFILENAME.XLS
  
```

4. Enter the selection criteria, just as you do with an English sentence (e.g. WITH 162 = "LEP"). Enter this section only if you want a specific group. If you want all of your students press <ENTER> to skip this prompt to select all students in the school.

```

    Enter the selection criteria (WITH...optional) : WITH 162 = "LEP"
  
```

5. Enter the order in which you want the list to be downloaded. If you want a different sort order other than alpha by grade, enter your choice (e.g. **BY ROOM BY NAME**), otherwise press <ENTER>.

```

    Enter the sort order (BY...optional) : BY ROOM BY NAME_
  
```

6. Enter the fields you want, using the standard field number or word names as indicated in the SIS Dictionary section at the back of the SIS Manual or by going to esis.lausd.net, then look on the middle of the page where you will find *NEW-ESIS Student Information Dictionary.xls*. Enter the field names in the order you want them to download. (e.g. **12 NAME ROOM TEACHER**) Make sure these names or field numbers (12 IS THE FIELD NUMBER FOR DISTRICT ID) are separated by spaces.

```

    Enter field names, separated by spaces : 12 NAME ROOM TEACHER
  
```

7. Once the Accu Term Data Transfers Utility appears, the download begins. A pop-up window will appear indicating the progress of the download process. After the download is complete type :GO and press <ENTER>. This will return you to the SIS Main Screen. Go to your desktop and find the file you just saved. Double click it and it will open as an Excel Spreadsheet. If you make a mistake delete the file and try again.

Remember never to e-mail student sensitive information to anyone!!!!!!
